PROFESSIONAL SUMMARY

Senior MDR SOC Analyst with 5+ years of experience securing multi-tenant cloud and enterprise environments across Azure, AWS, Microsoft Defender, SentinelOne, and CrowdStrike. Specializes in detection engineering, incident response, and PowerShell/Python automation. Proven ability to reduce alert fatigue, increase detection fidelity, automate triage workflows, and strengthen resilience aligned with NIST CSF.

CORE SKILLS

- **Threat Detection & Response:** MS Defender, Azure Sentinel, SentinelOne, CrowdStrike, Splunk, OpenSearch, Proofpoint, Qualys
- **Scripting & Automation:** Python & PowerShell automation
- **Detection Engineering:** Built detection rules for Microsoft Defender/SentinelOne reducing alert fatigue by 20%
- **System & Network Administration:** Windows/Linux, SOHO networks, hardware lifecycle, endpoint hardening
- **Cloud Platforms:** Azure Cloud, AWS Cloud (EC2, IAM, S3), Google Workspaces, Microsoft 365 Security
- **Governance & Compliance:** NIST CSF, GRC, PCI, ITIL 4 Foundation
- **Disaster Recovery & BCP:** Authored and tested scalable recovery plans for business continuity

PROFESSIONAL EXPERIENCE

Senior SOC Analyst | New Era Technology | Detroit, MI | Oct 2022 – Present

- Drove MDR incident response across Azure, Defender 365, SentinelOne, CrowdStrike, and AWS; reduced incident time by **20%**.
- Performed threat hunting and IOC analysis via KQL and PowerShell, producing actionable reports for clients.
- Designed and implemented custom detection rules (Defender & SentinelOne) cutting alert fatigue by **25%** and improving detection accuracy.
- Led security assessments and risk reviews to identify vulnerabilities and recommend safeguards.
- Delivered SOC playbooks and tabletop exercises enhancing client preparedness and operational maturity.

IT Security Analyst & Compliance (Contract) | DTE Energy | Detroit, MI | Mar 2021 – Oct 2022

- Directed GRC audits and PCI reviews resulting in a 10% increase in overall compliance rates.
- Used Alteryx and SAP to analyze security data and develop dashboards for leadership decisions.
- Created and maintained documentation for policy adherence and vulnerability remediation.

IT Specialist (Contract) | USCRI | Dearborn, MI | Aug 2020 – Feb 2021

- Rebuilt field office IT infrastructure for reliability and scalability.
- Managed endpoints, printers, IoT devices, and security systems to ensure system security and continuous uptime.

TECHNICAL SKILLS

- **Cloud Technologies:** Microsoft Defender 365, Sentinel, CrowdStrike, SentinelOne, Splunk, OpenSearch, Qualys, AWS, Azure.
- **Programming Languages:** Python, PowerShell, Java, HTML, JS, CSS, C++.
- **Version Control:** GIT, GitHub.
- **Cloud Services:** Amazon EC2, GRC, Microsoft 365.

Projects

- Built a custom threat intelligence scanner integrating multiple tools including VirusTotal, AbuseIPDB, and CriminalIP for enriched IOC analysis.
- Completed a cybersecurity capstone project focused on AI-enabled threat detection.
- Created and deployed numerous detection rules using KQL in Microsoft Defender to enhance proactive threat hunting capabilities.

EDUCATION

- **Master of Business Administration - MBA**
Western Governors University | Millcreek, Utah | *Graduated: December 2025*
- **Master's Degree in Cyber Security and Information Assurance**
Western Governors University | Millcreek, Utah | *Graduated: June 2024*
- **Bachelor's Degree in Software Engineering**
Western Governors University | Millcreek, Utah | *Graduated: December 2022*

CERTIFICATES

- Microsoft Security Operations Analyst Cyber | Security Architect | Network Engineer
- AWS Solutions Architect Associate
- CompTIA PenTest+ | CySa+ | Linux+ | Security+ | Project+ | A+
- ITIL 4 Foundation
