PROFESSIONAL SUMMARY

Experienced Senior MDR SOC Analyst specializing in cybersecurity solutions, with a proven track record of identifying and mitigating cyber threats efficiently. Adept at system administration, hardware, networking, and employing scripting to enhance security. Skilled in aligning security measures with industry standards such as the NIST Cybersecurity Framework and implementing technical controls to strengthen organizational security posture.

PROFESSIONAL SKILLS

- **Cybersecurity:** Expert in threat hunting and active mitigation, reducing security incidents by over 30% in current role.
- **System Administration:** Advanced knowledge of operating system functionality with a focus on troubleshooting and efficiency.
- **Infrastructure Expertise:** Proficient in managing hardware and security components, ensuring robust system integrity.
- **Scripting and Automation:** Skilled in using Python to automate critical security processes, improving response times by 25%.
- **IT Infrastructure Management:** Managed 200 PC workstations and a SOHO network, optimizing performance and security.
- **Detection Engineering:** Proficient in developing and fine-tuning detection rules and alerts using KQL, SentinelOne, and CrowdStrike to enhance threat visibility and response capabilities.
- **Disaster Recovery:** Developed comprehensive BCP and disaster recovery plans, tested and verified for scalability and reliability.

TECHNICAL SKILLS

- **Cloud Technologies:** AWS Cloud, Azure Cloud.
- **Programming Languages:** Python, PowerShell, Java, HTML, JS, CSS, C++.
- **Version Control:** GIT, GitHub.
- **Cloud Services:** Amazon EC2, GRC, Microsoft 365.

EDUCATION

- **Master of Business Administration - MBA**
Western Governors University | Millcreek, Utah | *Graduate: August 2025*
- **Master's Degree in Cyber Security and Information Assurance**
Western Governors University | Millcreek, Utah | *Graduated: June 2024*
- **Bachelor's Degree in Software Engineering**
Western Governors University | Millcreek, Utah | *Graduated: December 2022*

CERTIFICATES

- Microsoft Cyber Security Architect | Security Operations Analyst | Network Engineer
- AWS Solutions Architect
- CompTIA PenTest+ | CySa+ | Linux+ | Security+ | Project+ | A+
- ITIL 4 Foundation

PROFESSIONAL EXPERIENCE

Senior SOC Analyst | New Era Technology | Detroit, MI | Oct 2022 – Present

- Led MDR Incident response initiatives using tools like Azure, MS 365 Defender including KQL for advanced hunting, CrowdStrike, Splunk, OpenSearch, SentinelOne, and AWS, reducing incident time by 20%
- Conducted advanced threat hunting, delivering detailed security reports that influenced client security strategies.
- Enhanced spam and malicious email detection processes, reducing false positives by 15% through Qualys.
- Led detection engineering initiatives to develop and optimize threat detection rules in KQL for Microsoft Defender and SentinelOne, reducing alert fatigue by 20%.
- Conducted security assessments and risk analyses to identify vulnerabilities and recommended appropriate safeguards for sensitive information within various storage environments.
- Designed and delivered tabletop exercises and training sessions for business units to enhance awareness of data security policies and technical controls, fostering a culture of security within the organization.

IT Security Analyst & Compliance | DTE Energy | Detroit, MI | Mar 2021 – Oct 2022

- Directed GRC auditing processes, delivering actionable insights that led to a 10% improvement in compliance rates.
- Monitored PCI updates and analyzed data security using Alteryx and SAP, crafting statistical reports that enhanced data-driven decision-making.

IT Specialist (Contract) | USCRI | Dearborn, MI | Aug 2020 – Feb 2021

- Overhauled field office IT infrastructure, enhancing system reliability and performance.
- Managed updates to printers, IoT devices, and security systems, ensuring continuous operational excellence.
